Technical Details

Usage	<p>This kit has been especially developed for use on bathroom floor and generic wall tiles (including porcelain, ceramic & glass). Can be used on most substrates for interior and exterior including cementitious floor etc.</p> <p>*As it is difficult to cover all available substrates in our testing, it is recommended for our users to test the compatibility of this product on a small area prior to large scale application.</p>
Coverage	One kit will cover 2.5m ²
Kit Content	One paint tray, 2 paint rollers, 1 paint handle, 1 sanding block, 1 tin of ALLEGAN RENO 600 Tile Paint
Number of Coats	One unless covering a dark coloured or heavily patterned tile or porous grouts.
Drying Time	Touch Dry within 30 minutes, paint over in 4 hours (usually not required), up to 12 hours full dry depending on temperature and humidity.
Ready for use	4 to 12 hours after application
Colours	12 colours & 1 clear coat
Finish	Glossy
Durability	Water and Mould Resistant
VOC	Ultra low VOC, Green Label Compliant
Storage	<p>Keep in dry place away from direct sunlight. Storage temperature 4°C–25°C</p> <p>Shelf life is 12 months from the date of manufacture when stored as directed.</p>

For interior & exterior application | Abrasion Resistant | Non Yellowing | Safe & Green Formulation

HYDROSYNTHESIS™ Technology

ALLE products undergo HYDROSYNTHESIS™ by harnessing the natural energy of water, be it in the form of atmospheric moisture or liquid, to form permanent chemical bonds. As a result, ALLE products are versatile in different application temperatures, humidity, and conditions.

Products which cure via HYDROSYNTHESIS™ are safe as they do not utilize hazardous chemicals, nor do they release any harmful chemicals to the environment.
