

EDUCATION CHOICE FACT SHEET- 2024-2025 SCHOOL YEAR

OFFERING MICRO SCHOOL/HOMESCHOOL SUPPORT ACROSS MINNESOTA

WHO WE ARE

Education Choice is a group of parents and educators concerned with providing support to those families that have chosen to open micro schools and homeschools in Minnesota. Given the changing landscape of education choice, we are committed to provide information and resources so that parent home-educators can offer safe, effective and successful educational opportunities for their children.

THE BIG PICTURE

Ensure that as many boys and girls as possible can access classical academic education:

- Using methods grounded in objective reality and deductive reasoning,
- in a setting-that honors our Judeo/Christian heritage as the external measure of right and wrong and the basis of our ability to civilly live and work together as a self-governing people in our republic; and
- socializes students with an emphasis on family, faith and community.

Assist home school co-ops and micro schools to collaborate with one another.

Create a pool of human and other resources, available on a volunteer basis to support home schooling and micro schools in Minnesota.

ZOOMING IN

Academics: Students must achieve mastery of academic basics, especially grade-level reading and math. Public schools are not prioritizing this.

Values: Parents must be able to trust that their children will not be indoctrinated in now mainstream subjective reality worldviews and progressive beliefs, especially Woke race and sexual dogma. Learning will be grounded in classical objective reality and deductive reasoning methods creating Woke-resistant boys and girls.

Working with "work": Two -income, working families have work structures to accommodate; many need inexpensive work-time child care as well as supplemental support for home-schooling.

"The parent of a child is primarily responsible for assuring that the child acquires knowledge and skills that are essential for effective citizenship."

Minnesota Statute 120A.22.1

WHAT WE DO:

Education Choice intends to serve as a resource for families who are seeking to homeschool or start a micro school for their children in Minnesota. We offer a wide array of services, research support and information sourcing. Although we are not legal or financial advisors, here are some examples of the types of services we offer:

- Help writing a plan for your homeschool/micro school.
- Guidance in forming a corporate structure and access to resources if desired.
- Help writing manuals, developing documentation and educational materials as needed.
- Assistance with networking with other homeschool/micro school families.
- Problem solving on a case by case basis.
- Free or low-cost access to professional help with project planning, document development, applications for services, review of local and State requirements.
- Access to service professionals and volunteers with years of experience in education, homeschooling, organizational development, health care professionals and business /non-profit best practices.
- Weekly check-ins for participants.

- ▶ Academic assistance related to Pedagogical Standards (information about what should be learned at age levels or in a developmental sequence) and curriculum development/review.

- ▶ Low or no-cost technological support for homeschool and micro school families

Choosing the right educational venue for your children can be like climbing a mountain; it's one step at a time. If you are new to homeschooling or are looking for or want to open a homeschool co-op or micro school in your area that shares your values, Education Choice can help.

HOW CAN WE HELP SUPPORT YOUR MICRO SCHOOL/HOMESCHOOL START-UP?
