AND BEYOND!

# 100% unique Business class cabin

Since June 2019, La Compagnie has upgraded our entire fleet to brand new Airbus A321neo planes.

Our cabins are unique and spacious, configured with just 76 full flat seats and arranged in 19 rows of 2x2 seats.

Passengers particularly enjoy personalized service, additional extra space and the warm LED lighting atmosphere.

## 76 full flat seats

All extend to 6 feet 3 inches for a relaxing sleep/rest.

All seats recline to perfectly horizontal beds for maximum rest during the journey. They have a total length of 6.3 ft in bed position. Each is equipped with a reading lamp, compartments for personal items, an electrical outlet, headphone jack, and a pouch for documents.

For our customers' comfort and well-being onboard, we provide anti-allergenic pillows, large soft covers, and a travel care amenity kit with Caudalie hydrating products included.

# In-flight entertainment

Each passenger has a 15.6-inch seat mounted screen display at their disposal. It comes complete with a wide selection of movies, including classics, indie favorites and new releases, and expertly curated music. Noise-cancelling headsets are also offered to passengers for total comfort.

All passengers have access to free, unlimited high-speed Wi-Fi during their flight from their personal devices. They can access a portal of curated content such as newspapers, magazines, and a news channel. There is even an e-shop offering exclusive sales of premium brands throughout the flight.

# French & Italian Gastronomy onboard

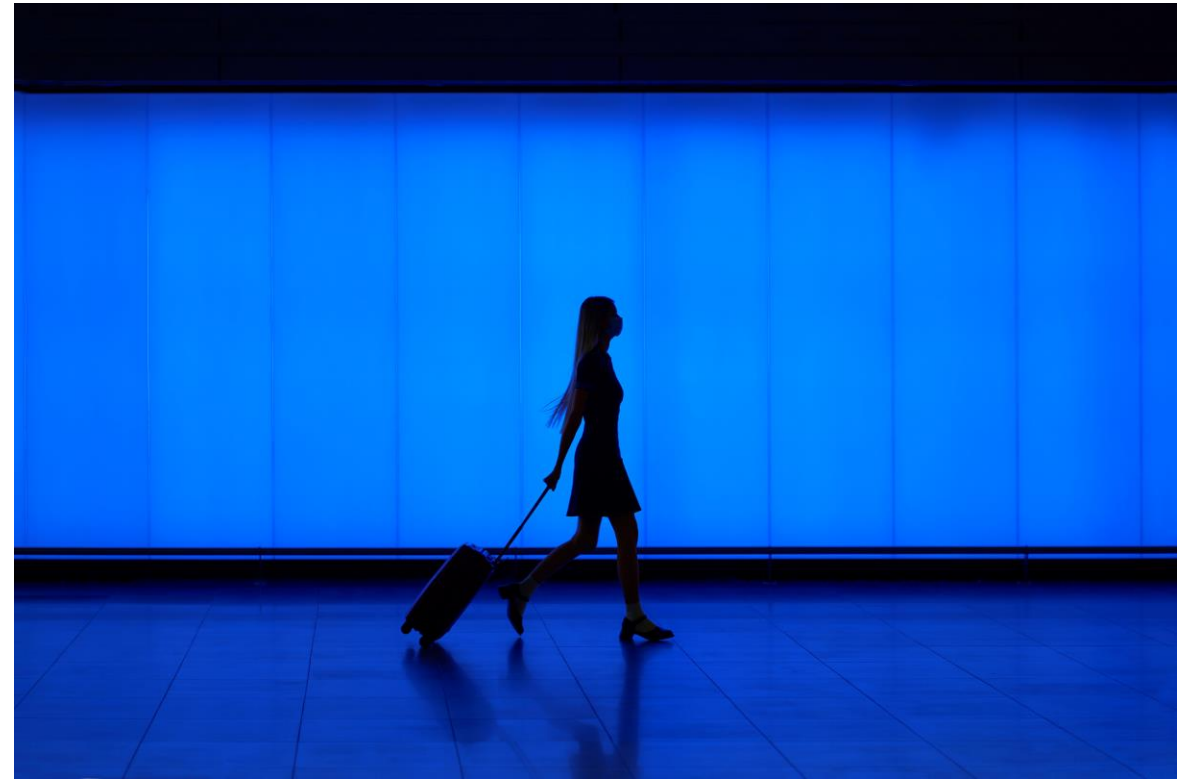

Ever since La Compagnie was created, renowned chef Christophe Langrée has ensured passengers enjoy seasonal French gastronomy onboard.

Menus onboard are refreshed every month and chefs from Paris, Nice and NYC are invited by our chef Christophe Langrée to contribute signature dishes to our menus throughout the year. Featured chefs have included David Toutain, Frédéric Duca, Florent Ladeyn, Yann Couvreur, and Gaël & Michaël Tourteaux.

## Fluid experience at the airport

In each airport, passengers have priority head-of-the-line privileges and access to a business class lounge with space for relaxation, work and catering.
