Scaling for tomorrow

Think beyond limits. Achieve beyond expectations.

Dear OpenAI Leadership Team,

Thank you for considering Genpact as your partner to meet and exceed the strategic goals of your finance operations. We're excited to support OpenAI's mission to build AGI for billions of users.

As a trusted partner to more than 25% of the Fortune 500 companies, we will bring proven F&A expertise to OpenAI. Our investments in AI are paying off through initiatives such as the Genpact AI Gigafactory and agentic solutions that include our Genpact AP Suite and the CFO Actions Hub for Finance. We sit at the intersection of industry domain experience and AI-driven solutions.

Our AI solutions go beyond generic applications to deliver targeted, domain-specific value. To deliver on this, we bring deep process expertise, an understanding of data, and domain insights that unlock real outcomes. Our end-to-end view of processes, granular benchmarking, and operator-led approach form what we call "process intelligence." As I often say:
"There is no Artificial Intelligence without Process Intelligence."

Recognizing the urgency of rapid growth, our approach prioritizes agility, seamless transitions, and outcome-based transformation. I'm sure you'll experience what our clients appreciate - our culture rooted in relentless client centricity, a start-up mentality, a bias for speed, and an active learning mindset.

You have my commitment and that of the Genpact leadership team to make this a successful collaboration.
