

## Somna Sleeper

Fostering a vital caregiving role, the Somna sleep sofa provides the comfort needed for a patient's most important support system. Maintaining adaptability as a primary feature, Somna can be specified down to the inch to fit perfectly into any alcove.

An elevated design makes Somna appear visually lighter while also being physically easier for staff to reposition and access below for cleaning.

Versatile arm styles, caster, glide, and power options combined with a contemporary palette provide ultimate flexibility.

Designed for easy part replacement if components such as arm caps, fold-down back, feet, casters, and glides become damaged.
