

# Expedition Photography

## WHERE GEOGRAPHY AND PHOTOGRAPHY MEET

There is simply nothing like Expedition Photography anywhere else in travel. Born of our expedition heritage, our exclusive program provides four key benefits:

1. National Geographic Photography Experts aboard every departure of *National Geographic Endurance*, *National Geographic Resolution*, *National Geographic Explorer* and *National Geographic Orion*, and select departures fleet-wide
2. A Lindblad-National Geographic certified photo instructor aboard every ship in our fleet
3. Plus highly immersive Photo Expeditions, designed by photographers for photographers
4. Eager to try a powerful new lens? Researching a new camera purchase? Take advantage of the onboard OM System Photo Gear Locker with our compliments. The Locker is available on all National Geographic-named ships (except Galápagos). View a pre-voyage photo webinar and enjoy exclusive gear discounts as well!

Contact your Travel Advisor for more details.
